Eccellio FAQ

We report in this document some Frequently Asked Questions that people asks about Eccellio. These FAQ quickly summarize the aim of Eccellio. For further information feel free to contact an Eccellio representative using the contacts reported at the bottom of this document or visit our Corporate Info website [here](#).

1. What is Eccellio?

Eccellio is a Search Engine that brings a cool new feature, named “**Faceted Classification**”, that easily allows finding exactly what you are looking for on the Net. Using this new feature you can refine you search with one additional single-click only. Fast and easy.

2. Is Eccellio a new search engine?

Yes it is. Eccellio is bringing to the community a revolution in how to perform searches through Internet. Searching in Eccellio is quite similar to Google but indeed the result is hugely more accurate: able to find more, writing less.

3. Is it complex to perform a search in Eccellio?

No it doesn't. It's very simple to execute a search. You need to type a couple of words on a text field (like in Google) and click on the matter relevant to your search (e.g. Cooking, Medicine, Movies, etc.). If you want to have further details, have a look on our 1-minute tutorials by clicking [here](#).

4. Why I have to use Eccellio instead Google?

Nowadays searching on the Net could be very long and annoying because the huge data that has been producing from millions of websites. Eccellio gives you the ability to find exactly and quickly what you are looking for.

5. Is Eccellio better than Google?

Eccellio uses Google database but it adds an extra level of classification that allows you to refine your search easily. You don't need to learn a complex syntax to execute your searches. So Eccellio can be defined as Google++.

6. How many websites have been indexed?

Eccellio uses the huge database provided by Google. So using Eccellio means that you are using the Google database. However by performing one additional single click you can refine your search from thousands of pages to exactly what you are looking for. If you want to have a look on the Eccellio architecture, click [here](#).

7. What does Faceted Classification mean?

It means just one additional single click that allows you to refine your search. You don't need to learn any specific and complex syntax. You need to type your search and click on the matter relevant to your search. If you are looking for the Hilton hotel in Paris you need just to type "paris hilton" and select "Cities". By clicking on "Cities" you have chosen to contextualize your search to a specific matter (Tourism). Try to execute the same search in Google to understand the big difference.

8. What are the benefits of using Eccellio?

Basically when you execute a search the result is affected by the popularity of the words you typed. Today all Media influences hugely the weight of some specific words and end users have no protection against this. The main benefit of using Eccellio is the ability to easily find what you are looking for. Let's look at the "paris hilton" example as described on the previous Faq #7.
