About Eccellio

Eccellio is an Internet company founded in 2008 that has its focus on improving end user experience in retrieving information on Internet. Eccellio is a Search Engine that brings a cool new feature, named "Faceted Classification", that easily allows finding exactly what you are looking for. Eccellio uses Google database but it adds an extra level of classification that allows you to refine your search easily. End users don't need to learn a complex syntax to execute searches. So Eccellio can be defined as Google++ or Google simplicity with one additional single-click. For more information:
